Aggregates: 20

Primary Leaving Education (PLE)

Greenhill Academy

02/2006 - 11/2012

Aggregates: 6

EXPERIENCE

Web Developer Intern

National Information Technology Authority of Uganda (NITA-U) | 01/2023 - 03/2023

During my three-month intern period at NITA-U, I was majorly involved in IT Change Management that meant IT teams responding to service interruptions across Uganda and providing service restoration. This involved a lot of Service Desk jobs. I was also involved in IT Certification of IT companies in Uganda through NITA-U.

Intern

Help Africa Foundation | 02/2022 - 04/2022

During my two-month intern period at Help Africa I learnt what it means to be a contributing member to the community through charitable work. I personally helped record interviews and take photos of children to post on social media requesting funding contributions from the public while verifying their poor background.

PROJECTS

- **A Blockchain System to Secure Voter Registration Using**

SKILLS

PROFESSIONAL

Web development

Android app development

Database Administration

Penetration testing

Communication skills

Interpersonal skills

IT Change Management skills

Certificates

- CCNA - Network and routing essentials
- CISCO IT Fundamentals
- Cyber Security: White-Hat Ethical Hacking (Progress: 64%)

LANGUAGE

English

Fingerprint Data. (August 2023 - January 2024)
This project incorporates a web app (React) or Android app with Blockchain to build a secure system to store voter registry information.
Site: https://votechain-xi.vercel.app/

- **An Online Pharmacy System. (April 2022 – July 2022)**
  This project provides an online platform for patients to buy, order and get their drugs delivered to them easily.
